Notion template · Version Oct 2026

Welcome

Leads, deals, calls and follow-ups in one place — so no warm lead ever goes cold because you forgot to reply.

What's inside

Today's focus	Follow-ups due this week and your open deals, at the top of the page.
Deal Pipeline	A board from Prospect to Closed Won — every deal with value and a next step.
Contacts	Every lead and client. Last Contacted and Pipeline Value fill in by themselves.
Interaction Log	Every call, email and meeting with a follow-up date.
Projects	Work you're delivering for won deals, linked to the client.

Get started in 5 minutes

1. **Duplicate the template**
   Open the template link from your delivery email. Click the ··· menu (top right) and choose **Duplicate** / **Duplicate to my workspace**. Work only in your copy.
2. **Clear or keep the examples**
   Every database ships with a few example rows so you can see how things connect. Look through them, then delete them (select rows → Delete) or overwrite them with your own data.
3. **Favourite the page**
   Click the star (☆) at the top so the template sits in your sidebar. On mobile, it then appears under Favourites.
4. **Add your contacts**
   In **Contacts**, add a row per person with company, email, status and **Source** (where they came from).
5. **Create your deals**
   In **Deals**, add one row per opportunity with **Value**, **Stage**, the linked contact and a **Next step**.
6. **Log your last touchpoints**
   In **Interaction Log**, add your most recent call or email per contact and set a **Follow-up Date**.

> **Good to know:** fields with a formula or rollup fill in by themselves — you never type into them. If one shows empty, the linked data (relation, date or amount) it needs is missing.

How it works

Today's focus

- Shows every follow-up due this week and the deals that are still open.
- Open the page in the morning, clear the list, done.

Deal Pipeline

- Drag cards across stages: Prospect → Contacted → Proposal Sent → Negotiating → Closed Won / Closed Lost.
- Always fill **Next step** — a deal without a next step is a deal you're losing.
- Mark lost deals Closed Lost instead of deleting them — patterns show up over time.

Contacts (automatic)

- **Last Contacted** comes from the newest linked interaction — no manual date updates.
- **Pipeline Value** adds up the value of every deal linked to the contact.
- Open a contact to see its deals, interactions and projects in one place.

Interaction Log

- One row per call, email, meeting or message, with short notes and a **Follow-up Date**.
- Tick **Follow-up Done** when you've replied — it leaves Today's focus.
- Click a Follow-up Date → turn on **Remind** to get a notification.

Projects

- Won a deal? Add the project with dates and budget and link the contact.

Your routine

Every morning (5 min)	Clear the follow-ups in Today's focus.
After every call or email (30 sec)	Log it in the Interaction Log with the next follow-up date.
Weekly (10 min)	Move deal stages and update every Next step.

Pro tips

- Reply within 24 hours — fast replies convert far more often.
- Follow up twice: day 3 "Did this land OK?", day 7 "Should I keep the slot open?"
- Fill Source on every contact — after 3 months you'll know where your best clients come from.

FAQ

Which Notion plan do I need?	The free plan. Every database, formula and view in this template works without upgrading.
Can I rename or add properties?	Yes. If you rename a property that a formula or rollup uses, Notion updates the reference automatically. Deleting such a property breaks the formula that depends on it.
What currency is used?	Amounts are plain numbers, so any currency works. If you want a symbol, open the property → Number format → pick your currency.
Something isn't working?	Email info@templyworks.com with a screenshot. We fix setup problems quickly.
