Templyworks

SETUP & USER GUIDE

Client Portal

The client-facing hub that ends email chaos.

templyworks.com · info@templyworks.com

Notion template · Version Oct 2026

Welcome

Milestones, deliverables, feedback, meetings and invoices on one shareable page your client can open anytime.

What's inside

Milestones	The project journey, phase by phase.
Deliverables	Every file by version: v1, v2, Final.
Feedback & Blockers	Client feedback and anything blocking progress.
Meeting Notes	Every call summarised, in date order.
Invoices	Amounts, due dates and automatic payment status.
FAQ	Client-facing answers on revisions, payments and contact.

Get started in 5 minutes

1. **Duplicate the template**
   Open the template link from your delivery email. Click the ··· menu (top right) and choose **Duplicate** / **Duplicate to my workspace**. Work only in your copy.
2. **Clear or keep the examples**
   Every database ships with a few example rows so you can see how things connect. Look through them, then delete them (select rows → Delete) or overwrite them with your own data.
3. **Favourite the page**
   Click the star (☆) at the top so the template sits in your sidebar. On mobile, it then appears under Favourites.
4. **One portal per client**
   Duplicate the whole portal page once for each client and rename it (e.g. "Aurora Studios — Portal").
5. **Fill in your details**
   Edit the FAQ: replace **your@email.com** with your own email and adjust revisions and payment terms to your contract.
6. **Set up the project**
   Add Milestones with Phase and Due Date, and your first Invoice with Amount and Due Date.
7. **Share with the client**
   Click **Share** → invite your client by email. Give **Can comment** or **Can edit** access so they can add feedback.

> **Good to know:** fields with a formula or rollup fill in by themselves — you never type into them. If one shows empty, the linked data (relation, date or amount) it needs is missing.

How it works

Milestones & Deliverables

- Milestone **Status**: Upcoming → In Progress → Done.
- Each deliverable gets a **Version** (v1, v2, Final), a **File Link** and a **Status** (In Progress, Ready for Review, Approved).

Feedback & Blockers

- Clients add feedback directly as a row — no email threads.
- **Type** "Waiting on Client" + the **Waiting on You** view shows the client exactly what's blocking progress.
- Set Status to Resolved once handled.

Invoices (automatic)

- **Status** calculates itself: ✓ Paid once **Paid Date** is filled, 🔴 Overdue after the Due Date, otherwise 🟡 Pending.
- Just enter the Paid Date when money arrives — no manual status changes.

Before you share

- Delete the example rows and replace the FAQ email.
- Check sharing: only invite the client — don't publish the page to the web unless you want it public.
- The licence toggle at the bottom is for you; clients can ignore it.

Your routine

After every call	Add a Meeting Notes row with Summary and Action Items.
When you deliver	Add or update the Deliverable, set Ready for Review, tell the client in one line.
Weekly	Update milestone Status, resolve feedback, check invoice Status.

Pro tips

- Send the portal link on day one — clients judge your organisation early.
- Keep all feedback in the portal; politely redirect emailed feedback there.

FAQ

Which Notion plan do I need?	The free plan runs everything essential. Some view types (e.g. Charts) have limits on free plans; all core databases and formulas work without upgrading.
Can I rename or add properties?	Yes. If you rename a property that a formula or rollup uses, Notion updates the reference automatically. Deleting such a property breaks the formula that depends on it.
What currency is used?	Amounts are plain numbers, so any currency works. If you want a symbol, open the property → Number format → pick your currency.
Something isn't working?	Email info@templyworks.com with a screenshot. We fix setup problems quickly.

Licence: personal and business use, including work for your own clients. Reselling or redistributing the template is not allowed. Digital product — all sales are final once delivered (you agreed to immediate delivery at checkout). Statutory rights for defective content remain unaffected.
