Templyworks

YOUR CUSTOM BUILD GUIDE

Custom Template

Your personal Notion system — built for you.

Welcome

Thanks for ordering a Custom Template. We design a Notion workspace from scratch around how you work. This guide explains what happens next, how to write a great brief, and how to use your finished system.

What's inside

Your workspace	A personal Notion system designed around your brief.
Delivery	Private Notion link within 3–5 business days after your complete brief.
Revision	One round of changes included.
Notion plan	Built to work on a free Notion account.
Support	Questions answered by email at info@templyworks.com.

How it works

1. **Order confirmed**
   You receive an order confirmation right away.
2. **Send your brief**
   Reply to our email with your answers to the brief questions on the next page. The clearer the brief, the better the result.
3. **We design it**
   We build your workspace. If something is unclear we ask — the clock starts once the brief is complete.
4. **You receive your link**
   Within 3–5 business days you get a private Notion link. Open it and click Duplicate to copy it into your workspace.
5. **One revision round**
   Try it for a few days, then send all change requests in one email. We update the system and send the new link.

> **Start now:** reply to our email with your brief (questions on the next page). Delivery time starts once your brief is complete.

Your brief & next steps

Your brief — answer these

- **Who are you?** Job, business or study — and how many people will use the workspace.
- **What should it solve?** The 1–3 problems that frustrate you most today.
- **What do you track?** E.g. clients, projects, tasks, money, content, habits, notes.
- **Your routine:** what you do daily, weekly and monthly — and on which device.
- **What didn't work before?** Templates or tools you tried and why they failed.
- **Must-haves vs nice-to-haves:** list them separately.
- **Style:** minimal or visual, light or dark, language (English or German).
- **Examples:** screenshots or links of setups you like (optional, very helpful).

Tips for a great brief

- Describe your real workflow, not your ideal one — we build for how you actually work.
- Fewer, clearer goals beat a long wish list. You can always grow the system later.
- Mention anything time-sensitive (deadlines, launch dates).

Your revision round

- Use the system for a few days before sending changes — real use shows what matters.
- Send all changes in **one** email so nothing gets lost.
- Revisions cover adjustments to the agreed scope (fields, views, layout, wording). Completely new features or a different scope can be quoted separately.

After delivery

- Duplicate the link into your workspace, then delete or overwrite the example entries.
- Fields with formulas or rollups fill in by themselves — you never type into them.
- Favourite the main page (☆) so it sits in your sidebar and on mobile.

Timeline

Day 0	Order + send your brief.
Day 1–5 (business days)	We build. Delivery by email with your private Notion link.
After delivery	Test it, then send your revision request in one email.
Revision	Updated link, usually within 2 business days.

Pro tips

- Reply to the order email if you can't find our brief request — check spam first.
- Keep the delivered link private; it's licensed for you (and your own clients' work), not for resale.

FAQ

When does the 3–5 days start?	When we have your complete brief. If we need to ask questions, the time starts once they're answered.
Can I use it with my team?	Yes — share your duplicated workspace with collaborators inside Notion.
Can you build something for a paid Notion feature?	Tell us in the brief. By default everything works on the free plan.
Something isn't working?	Email info@templyworks.com with a screenshot.

Licence: personal and business use, including work for your own clients. Reselling or redistributing the workspace as a template is not allowed. Statutory rights remain unaffected.
