SETUP & USER GUIDE

Student OS

Your whole school year, under control.

templyworks.com · info@templyworks.com

Notion template · Version Oct 2026

Welcome

Classes, assignments, exams, grades and GPA in one calm system — with study tracking that shows where your time really goes. For high school and college students anywhere in the world.

What's inside

This week	Assignments due and upcoming exams, at the top of the page.
Courses	One row per class — Grade %, Letter, GPA pts and On track fill in by themselves.
Assignments	Everything due with a Days left countdown. Table, board and calendar views.
Exams	Every test with a countdown and a spaced revision plan.
Study Sessions	Each study block; time adds up per course and exam.
Grades	Score, Max and Weight % — averages calculate themselves.
Class Schedule	Your weekly timetable, grouped by day.
Notes & Habits	Lecture notes with a review flag, and a daily habit score.

Get started in 5 minutes

1. **Duplicate the template**
   Open the template link from your delivery email. Click the ··· menu (top right) and choose **Duplicate** / **Duplicate to my workspace**. Work only in your copy.
2. **Clear or keep the examples**
   Every database ships with a few example rows so you can see how things connect. Look through them, then delete them (select rows → Delete) or overwrite them with your own data.
3. **Favourite the page**
   Click the star (☆) at the top so the template sits in your sidebar. On mobile, it then appears under Favourites.
4. **Add your courses**
   In **Courses**, add one row per class with term, credits (college) and a **Target %**.
5. **Enter what's due**
   Add every assignment and exam you know about, each linked to its course.
6. **Fill your timetable**
   Add your classes to **Class Schedule** by day and time.

> **Good to know:** fields with a formula or rollup fill in by themselves — you never type into them. If one shows empty, the linked data (relation, date or amount) it needs is missing.

How it works

Grades & GPA (automatic)

- Enter **Score**, **Max** and **Weight %** for each grade. The course's Grade %, Letter and GPA pts update instantly.
- **On track** compares your grade with your Target %.
- Your GPA: at the bottom of the **GPA pts** column, click → Calculate → Average.
- Uses the common US 4.0 scale. Different system? Edit the Letter and GPA pts formulas — Grade % works everywhere.

Assignments & Exams

- **Days left** counts down and turns ● when something is overdue.
- Open an exam for a spaced revision plan (see Biology Midterm) — short sessions spread out beat one all-nighter.
- Click a Due date → turn on **Remind** to get a notification.

Study Sessions

- Log minutes and method per session. Courses and exams add up your time.
- The optional Time per course chart uses Notion's 1 free chart — skip it if you've used yours.

New term

- Set old courses to Completed and add new ones with the new term. The All terms view keeps your history.

Your routine

Every morning (1 min)	Check This week.
When you get work	Add the assignment right away.
When a grade comes back	Log it the same day.
Sunday (10 min)	Plan the week's study blocks.

Pro tips

- Test yourself instead of re-reading — active recall feels harder, that's why it works.
- Four 30-minute sessions over two weeks beat one 2-hour cram.
- Add Student OS to Favourites in the Notion app — This week is right at the top.

FAQ

Which Notion plan do I need?	The free plan. Everything works free.
High school or college?	Both. Use Credits for college, ignore them in high school.
My school uses a different grading system.	Edit the Letter and GPA pts formulas in Courses. Grade % works for every system.
Something isn't working?	Email info@templyworks.com with a screenshot.
